

I am writing in regard to the new broadcast service know as LPFM and the proposed expansion that may affect the continued broadcast of an FM station I currently listen to. K-LOVE is an encouragement and one of the few sources of Christian broadcasting in my area. If this proposal were to replace this family-friendly programming in my area there would not be many other options for Christian radio. K-LOVE's commercial free style and contemporary music is both for young and old and if it were to be replaced the community here in Va Beach would greatly miss their positive encouraging message. Thousands of people are being reached in the name of Jesus through this radio station and many people would miss the message if the signal were to be interrupted. Thank you for taking the time to consider my request and not giving priority to LPFM stations.
